19 DEC 1978

25X1

MEMORANDUM FOR:

1. I offered ~~up~~ my draft testimony on  at the NSC meeting today. Everyone was interested, particularly the President. He kept a copy. 25X1

(You will have to figure out which number from what is missing, since I gave out no others--and then get a signature [from Brzezinski's office]). Vance suggested that no one else keep one but that each read it and return it. He particularly stressed to me that he would like to have someone bring it over to him tomorrow. He will let us know what time--I would appreciate your checking with his office however.

2. Chairman of the Joint Chiefs, Secretary of Defense, Director of ACDA also indicated that they would like to see it. Please have someone check with their offices to see if they would like it run over. The idea is to have someone wait while they read it.
